Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Borgato US4434635.

Regarding claim 1, Borgato discloses providing a door having an upright member (col 1, line 41), retaining slidably a latch rod 4 in the upright member, biasing one end of the latch rod 4 such that thereof extends from a perimeter of the stall door 2, positioning a latch retainer 29 adjacent to one end of said latch rod 4, preventing the stall door from moving, and retracting the latch rod 4 to allow the stall door to be moved (col 2, line 67-clo 3, line 18).

Regarding claim 2, Borgato discloses extending a handle (in this instance, a key inserted into element 38 acts as the handle) from the latch rod 4 and pulling the handle to retract the latch rod 4.

Allowable Subject Matter

Claims 3-6 and 8-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 12-15 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record, including that of Borgato, does not teach or fairly disclose the method of concealing a stall door latch via retaining at least two guides in the upright member and extending a handle from the latch rod while biasing one end of the latch rod and positioning a latch retainer adjacent to one end of the latch retainer preventing the stall door from moving, and retracting the handle to allow the stall door to be moved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Guymer GB2101667A; Smith US1581029; Diebold et al. US6196034; Watts et al. US6502435.
